

Heating reliability. Cupro nickel durability.

Hayward heaters now feature cupro nickel heat exchangers for the ultimate in corrosion resistance. Cupro nickel protection delivers improved heater dependability and superior longevity in salt-based systems.

See it for yourself at www.haywardcanada.com.

Features:

- Cupro Nickel Heat Exchanger
- State-of-the-Art Finn Plate Heat Exchanger
- Patented Rust-Resistant Water Path
- Dual Voltage
- Digital LED Control Panel
- Insulated Fire Tile Combustion Chamber

The Hayward Cupro Nickel Heat Exchanger. Resisting corrosion. Improving longevity.

Meet the new standard in Hayward heat exchanger technology. Found on all 2006 gas heat exchangers from Hayward, cupro nickel is a supremely resilient material that provides greater product durability and longevity. Cupro nickel aligns well with today's popular salt-based systems and offers outstanding corrosion resistance. With so many advanced features, Hayward heaters deliver perfectly warmed water, season after season.

H-SERIES INDUCED-DRAFT LOW-NOX HEATER

Model	BTU	Width	Height
H250IDL2 H250IDPL2	250,000	27½"	28½"
H350IDL2 H350IDPL2	350,000	35¾"	28½"
H400IDL2 H400IDPL2	400,000	35¾"	28½"

Cupro Nickel Heat Exchanger
Cupro nickel offers superior resistance to saltwater corrosion.

State-of-the-Art Fin Plate™ Heat Exchanger
The unique "V" groove design allows for longer life and faster heating.

Patented Rust-Resistant Water Path
An injection-molded polymer header provides extended life and simple installation.

Dual Voltage
Installation is a snap with voltage that adapts to either 110V or 220V.

Digital LED Control Panel
The most reliable LED system to date. And it's only from Hayward.

Insulated Fire Tile® Combustion Chamber
Unlike older forms of insulation, Fire Tile securely traps the heat, providing the most from each BTU.

ADDITIONAL IDL HEATER FEATURES

Hot Surface Silicon Nitride Ignition System
The most dependable ignition system anywhere. Another Hayward exclusive.

Low NOx Emissions
Environmentally friendly, this heater complies with Texas and California air-quality emission standards.

H-SERIES ELECTRONIC HEATER

Model	BTU	Width	Height
H400	400,000	35¾"	28½"
H350	350,000	32½"	28½"
H300	300,000	29¾"	28½"
H250	250,000	27"	28½"
H200	200,000	24¾"	28½"
H150	150,000	21½"	28½"
