

S220T2 22" FILTER 250 LBS. OF SAND
S244T2 24" FILTER 300 LBS. OF SAND

The secret to crystal clear water!

The **Pro Series** filtration system offers full-flow technology that provides crystal clear water and good, clean fun for the entire family.

Molded from durable, corrosion-proof polymeric materials, the **Pro Series** filter features an advanced, self-cleaning lateral system for smooth, efficient flow and totally balanced backwashing. Plus, its 6-position Vari-Flo control valve allows you to easily dial any of the 6 valve/filter functions for easier operation and maximum efficiency.

Performance-matched with the energy-efficient Northstar or Super pump, **Pro Series** represents the next generation in swimming pool filtration . . . for crystal clear, sparkling water!
