

**For the
ultimate
clean, go**

XStream™

XSTREAM™ FILTRATION

- Designed specifically for the rigors of above-ground filtration
- Longer life – clean less often
- Extra-large filter body ensures an equal distribution of dirt and debris throughout the filtering element
- Engineered for use with flexible or rigid plumbing
- Glass-reinforced, noncorrosive PermaGlass XL™ filter tank for long life
- Easy-Lok™ ring design gives you single-turn access to all internal components

Patent Pending

THE RESULTS ARE CLEAR.

XStream size for an XStream clean.

Once you see the new XStream Filtration from Hayward, you'll be hooked. Its massive size and incredible performance mean years of trouble-free filtration. It has an extra-large capacity for dirt and debris and a quick-release, high-capacity air relief valve. But size isn't the only thing this filter's big on.

Convenience where it counts.

The XStream Filtration makes daily operation and servicing more convenient than ever before. It's engineered to install easily with both flexible and rigid plumbing. Plus, the Easy-Lok™ ring design gives you quick access to all internal components in a single turn. And a new glass-reinforced, noncorrosive PermaGlass XL™ filter tank ensures long-lasting, hassle-free operation.

Performance data

Model Number	Effective Filtration Rate	Design Flow Rate	Pressure Loss (at Design Flow Rate)	Maximum Working Pressure	Required Clearance		Replacement Hayward Cartridge	Turnover (in gallons)	
					Side	Above		8 hours	12 hours
CC1000	100 ft. ²	80 GPM	1 PSI	30 PSI	18"	24"	CCX1000RE	38,400	57,600
CC1500	150 ft. ²	120 GPM	1 PSI	30 PSI	18"	30"	CCX1500RE	57,600	86,400

XStream Filtration Specifications:

Filter type:	Full-flow cartridge element
Filter tank:	Injection-molded PermaGlass XL
Filter element:	Reinforced polyester element
Fastenings:	Easy-Lok™ ring assembly
Mounting base:	Injection-molded PermaGlass XL

CC1000 Series
