

e.VAC™
ROBOTIC POOL CLEANER

HAYWARD Pool Products®
One source. Every pool.

An innovative cleaner with plenty of bite.

Introducing the newest addition to the TigerShark family of cleaners. Hayward's e.VAC™ is built with proven TigerShark technology and high-quality components. A sleek, low-profile design and top-access filter cartridge are a few of the great features that give the new e.VAC added bite.

e.VAC™ – your pool’s most valuable asset.

The energy used by a standard light bulb is all that’s needed to power this innovative cleaner! The e.VAC is a floor specific cleaner that delivers performance and price in a uniquely robust design.

e.VAC high-quality performance cleaner features and benefits:

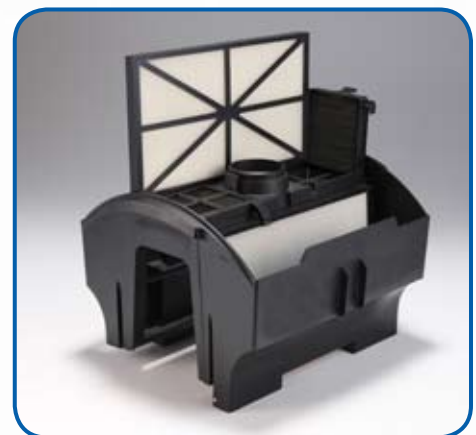

- The QuickClean™ technology cleans most size and shaped pools in 60 minutes or less
- Calculates the size of the pool and programs itself for the most time and energy efficient cleaning path
- Runs separately from the pool’s pump and filter system
- Requires no hoses or additional equipment
- Top-access filter cartridges allow for convenient cleanup – just remove and rinse with a garden hose
- Clear dome cover for visible cleaning action
- Perfect for residential pools up to 20 x 40 ft.

Uses up to 94% less energy than most pressure cleaners.

Easy top-access filter cartridge and removable filter basket.

Cleanup is easy – just remove filter and rinse.

	e.VAC
Work Cycle	2 hours
